# INTRODUCTION

The Governor submitted his Executive Budget for 2011-12 to the Legislature on February 1, 2011. The Executive Budget Financial Plan dated February 1, 2011 set forth the multi-year forecast of receipts and projections based on the Governor's proposed Budget.

The State Constitution permits the Governor to submit amendments to the Executive Budget within 30 days of its constitutional submission date. The Governor submitted amendments to the Executive Budget for 2011-12 on February 22, 2011 and March 3, 2011, as permitted by law.

The Executive Budget Financial Plan projections set forth herein reflect the impact of the Governor's amendments and revisions to the multi-year forecast of receipts and disbursements based on updated information. The Financial Plan information is organized in the following parts:

- **PART A** summarizes the fiscal impact of the forecast revisions and amendments that have been made to the Governor's Executive Budget Financial Plan originally submitted on February 1, 2011.
- **PART B** provides a comprehensive overview of the Executive Budget Financial Plan, as amended. It includes the following information:
  - An explanation of the impact of the Budget on key fiscal performance measures, current and projected operating results before and after implementation of the Executive Budget proposals, and budgetary risks.
  - A summary of the multi-year Financial Plan projections (2011-12 through 2014-15).
  - A review of preliminary, unofficial operating results through February 2011.
  - A summary of the impact of the Executive Budget on local governments.
  - An updated economic forecast.

The Financial Plan projections are subject to complex economic, political, and social forces that can adversely affect State finances, as well as to specific transaction risks that are part of any budget. The projections are based on the assumption that the Legislature will enact, without modification, the Executive Budget, as updated by the Governor's amendments, by April 1, 2011.

Tables appear at the end of this Financial Plan that include (a) the General Fund, State Operating Funds, and All Governmental Funds (hereafter "All Funds") Financial Plans prepared on a budgetary basis; (b) projected monthly operating results for 2010-11 and 2011-12 by fund group and fund type; (c) Financial Plans for the General Fund and All Funds prepared on a Generally Accepted Accounting Principles ("GAAP") basis; and (d) spending by agency.

<sup>5</sup> The State deferred more payments than were needed to carry forward the 2009-10 budget shortfall. This created a temporary increase in the year-end balance in 2009-10. The balance was used when the deferred payments were made in the first quarter of 2010-11.

# FINANCIAL PLAN PROJECTIONS

## PART A REVISIONS TO THE EXECUTIVE BUDGET FINANCIAL PLAN

The Governor submitted his Executive Budget for 2011-12 to the Legislature on February 1, 2011, and amendments on February 22, 2011 and March 3, 2011, as permitted by law.<sup>1</sup> The Executive Budget Financial Plan projections set forth herein reflect the impact of the Governor's amendments and revisions to the multi-year forecast of receipts and disbursements based on updated information. The table below summarizes the revisions to the Financial Plan dated February 1, 2011.

On March 1, 2011, as required by State law, the Executive and Legislature issued a joint report containing a consensus forecast for the economy and estimates of receipts for the current and upcoming fiscal years. The consensus forecast is intended to provide a common agreement on tax receipts as a precursor to legislative deliberations on the Executive Budget proposal. In the consensus forecast report, the parties agreed that tax receipts over the two-year period (2010-11 and 2011-12) were likely to exceed the Executive Budget forecast by approximately \$155 million. The consensus forecast will be taken into consideration in negotiations to adopt a budget for 2011-12, but is not reflected in the current Financial Plan revisions.

On February 24, 2011, the Governor accepted the Medicaid Redesign Team's<sup>2</sup> ("MRT") recommendations to reform the Medicaid program and improve program efficiency, which are expected to provide \$2.85 billion in gap-closing savings in 2011-12, and restrain growth in future years to the long-term average change of the medical component of the Consumer Price Index (currently estimated at approximately 4 percent annually). The amendments to the Executive Budget include the legislation necessary to implement specific savings proposed by the Redesign Team. Other amendments include annual funding for the Smart Scholars Early College High School Program to match a Gates Foundation grant, and a technical correction to estimated savings associated with the proposal to limit the Elderly Pharmacy Insurance Coverage ("EPIC") coverage to Medicare Part D enrollees who are in the coverage gap.

<sup>1</sup> The State Constitution permits the Governor to amend his Executive Budget proposal within 30 days of its constitutional submission. State Finance Law requires the Governor to make all practicable efforts to amend the budget within 21 days.

<sup>2</sup> The Medicaid Redesign Team was established under Executive Order Number Five. The Team's 25 members were charged with conducting a comprehensive review of the Medicaid program and report their findings to the Governor by March 1, 2011.

## FINANCIAL PLAN PROJECTIONS

Specifically, the MRT recommended a series of programmatic reforms to Medicaid payments and program structures (\$1.1 billion); the elimination of annual statutory inflation factors for hospitals, nursing homes and home and personal care providers (\$186 million); a 2 percent across the board rate reduction (\$345 million); the acceleration of certain payments to take advantage of additional enhanced Federal Medical Assistance Percentage payments (\$66 million); and an industry-led effort to generate additional savings (\$640 million). In addition, the plan recognizes the impact of slower caseload growth and changes in provider spending patterns (\$475 million).

The following table summarizes the most significant MRT savings proposals included in the Executive Budget.

As reported above, the overall forecast for tax receipts in 2010-11 and 2011-12 remains unchanged compared to the Financial Plan dated February 1, 2011. However, adjustments have been made to the estimates for individual taxes. In 2010-11, the Division of the Budget (“DOB”)

## **FINANCIAL PLAN PROJECTIONS**

---

has reduced the estimate for Personal Income Tax (“PIT”) receipts by \$100 million (\$75 million in lower withholding and \$25 million in increased refunds based on weaker to-date State-City offset results), based on receipts to date and the expected timing of payments. This change is offset in its entirety by an increase in the estimate of estate tax receipts due to an unusually high number of payments from affluent estates. In 2011-12, estimated personal income tax payments have been increased by \$150 million due to an increase in the forecast of capital gains realizations and non-wage income, but this is offset by a comparable projected increase in business tax refunds. In 2012-13 and beyond, the forecast for PIT estimated payments has been increased based on the updated economic and receipts forecast.

**PART B**  
**EXECUTIVE BUDGET FINANCIAL PLAN OVERVIEW**

**CURRENT BUDGET GAPS**

The State faces budget gaps of \$10 billion in 2011-12, \$14.9 billion in 2012-13, \$17.4 billion in 2013-14, and \$20.9 billion in 2014-15. The budget gaps represent the difference between the projected General Fund disbursements, including transfers to other funds, needed to maintain current services levels and specific commitments, and the expected level of resources to pay for them.<sup>3</sup> The gaps are based on a number of assumptions and projections developed by the DOB in conjunction with other State agencies.<sup>4</sup> The assumptions reflect the impact of current statutory provisions on outyear spending growth. Statutory mandates and entitlements, combined with enrollment increases, account for a significant portion of projected spending increases.

The General Fund is typically the financing source of last resort for the State's other major funds, including HCRA, the Dedicated Highway and Bridge Trust Fund, the School Tax Relief Fund, and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds.

The estimated gaps, which are sizeable by any measure, reflect the short-term impact of the recession on State tax receipts and economically-sensitive programs, the long-term impact of rapidly growing entitlement programs (especially, Medicaid and School Aid), and the phase-out<sup>5</sup> of the Federal government's increased support to health care and education costs.

<sup>3</sup>Typically referred to as the "current services" or "base" gaps.

<sup>4</sup> See DOB's Economic, Revenue, and Spending Methodologies, November 2010, at [www.budget.state.ny.us](http://www.budget.state.ny.us).

<sup>5</sup> Under the American Recovery and Reinvestment Act, the Federal government increased the matching amount it paid on eligible State Medicaid expenditures from 50 percent to approximately 62 percent. This temporary increase in the Federal Medical Assistance Percentage ("FMAP") ends on June 30, 2011.

## AMENDED EXECUTIVE BUDGET

Governor Cuomo's Executive Budget<sup>6</sup> would eliminate the General Fund budget gap of \$10 billion in 2011-12, and reduce the budget gaps to \$2.2 billion in 2012-13, \$2.5 billion in 2013-14, and \$4.4 billion in 2014-15.

Nearly 90 percent of the Executive Budget gap-closing plan consists of actions that would reduce spending. The plan proposes current-services reductions of \$2.85 billion each for School Aid and Medicaid, \$1.4 billion for State agency operations, and \$1.8 billion for a range of other programs and activities. The Executive Budget does not recommend any tax increases.

To provide a catalyst for the wholesale redesign of State agency operations to meet modern needs, the Executive Budget imposes a 10 percent year-to-year reduction in State Operations spending in the General Fund, and corresponding reductions in other funds, where appropriate.

To help accomplish the goal of fundamentally reducing the State's long-term spending burden, the Governor has appointed advisory commissions charged with redesigning current operations and recommending specific savings in the areas of Medicaid, criminal justice, and State agency operations. On February 24, 2010, the Medicaid Redesign Team submitted its proposals to achieve \$2.85 billion in savings in 2011-12 compared to the current-services forecast. The proposals are reflected in the amendments to the Executive Budget. Recommendations by the other commissions are due in the coming months.

To begin addressing the outyear gaps, the Budget proposes rational limits on the annual growth rates for major programs, including Medicaid and School Aid. The target growth rate for Medicaid would be the long-term average change in the medical component of the Consumer Price Index. The target growth rate for School Aid would be based on the change in New York State personal income.

Under the Executive Budget proposal, All Governmental Funds spending, the broadest measure of State spending, would decrease by \$3.6 billion (-2.6 percent) in 2011-12. State Operating Funds spending would increase by 1.0 percent, below the rate of inflation.<sup>7</sup>

The following sections of the Overview provide an explanation of the current-services budget gaps in the General Fund, including an update on the current fiscal year; the highlights of the gap-closing plan; the impact of the plan on key fiscal measures; and an assessment of risks to the Financial Plan.

---

<sup>6</sup> As amended. The Governor submitted his Executive Budget on February 1, 2011. The State Constitution permits the Governor to amend the Executive Budget within 30 days of submission. The Governor submitted amendments on February 22, 2011 and March 3, 2011. The Financial Plan reflects the impact of these amendments.

<sup>7</sup> Adjusted for the impact of enhanced FMAP, the 2009-10 School Aid payment deferral, planned pension amortization, and the retroactive collective bargaining reserve.

**FINANCIAL PLAN REVISIONS SINCE MID-YEAR UPDATE**

**CURRENT FISCAL YEAR (2010-11) UPDATE**

The Mid-Year Update to the Financial Plan<sup>8</sup> estimated that the General Fund had a potential budget gap of \$315 million in the current fiscal year. Based on a review of updated information for receipts and disbursements, DOB expects the General Fund to end the current fiscal year in balance<sup>9</sup> on a cash basis in the General Fund, although risks remain. Tax receipts have continued to fall substantially below anticipated levels, but a combination of unplanned miscellaneous receipts and lower than anticipated disbursements across a range of programs and activities are expected to be sufficient to end the fiscal year in balance. The table below summarizes the revisions to the 2010-11 Financial Plan.

<sup>9</sup> Neither the State Constitution nor State Finance Law provides a precise meaning of budget balance. In practice, the General Fund is considered "balanced" on a cash-basis of accounting if, at the end of a State fiscal year, all planned payments, including personal income tax refunds, have been made without the issuance of deficit notes or bonds, and the balances in the Tax Stabilization Reserve and Rainy Day Reserve have been restored to levels at or above the levels on deposit when the fiscal year began.

## FINANCIAL PLAN PROJECTIONS

---

General Fund receipts, including transfers from other funds, are expected to total \$54.1 billion in 2010-11, a decrease of \$410 million compared to the Mid-Year Financial Plan. Based on collections experience to date, DOB lowered the estimate for General Fund tax receipts by approximately \$705 million compared to the Mid-Year forecast. Since the Executive Budget, DOB has lowered the estimate of transfers from other funds based on a review of fund balances and administrative constraints (\$181 million).

The reduction in estimated annual tax receipts and transfers from other funds in 2010-11 is expected to be offset in part by higher than expected receipts from other sources. The most significant change reflects payment of public utility assessments that were not incorporated into prior updates to the Financial Plan, as they were not expected to be received in the 2010-11 fiscal year. This is expected to result in \$266 million in additional miscellaneous receipts in the current year. Other transactions are also expected to exceed budgeted levels in the final quarter of the fiscal year.

General Fund disbursements, including transfers to other funds, are estimated at \$55.0 billion, a decrease of \$697 million from the Mid-Year estimate. Estimated disbursements have been reduced across a range of programs and activities in local assistance, State agency operations, and debt service. The revisions reflect operating results to date, the continuing impact of cost control measures imposed on discretionary spending, and the conservative estimation of General Fund costs. Compared to the Financial Plan dated February 1, 2011, estimated spending has been reduced by approximately \$100 million, mainly in the areas of mental hygiene, health and education. In addition, the Plan reflects a technical adjustment that aligns School Aid disbursements with available appropriation authority (\$50 million).

The Financial Plan assumes the General Fund will use approximately \$37 million of the \$73 million in cash reserved for debt management in 2010-11. The remaining amount will be carried into 2011-12 and available for debt management purposes, as needed.

The General Fund is expected to end 2010-11 with a cash balance of \$1.36 billion. The balance consists of \$1.03 billion in the Tax Stabilization Reserve, \$175 million in the Rainy Day Reserve, \$94 million in the Community Projects Fund, \$21 million in the Contingency Reserve, and \$36 million reserved for debt management.

Risks to budget balance in the current fiscal year remain. They include the potential that actual tax receipts may fall below the revised estimates; year-end transactions, such as the transfer of excess balances from other funds or payments from non-State entities, may occur at lower levels than assumed in the Financial Plan; and disbursements in certain programs, especially economically-sensitive programs such as Medicaid, may exceed budgeted amounts. See "Other Matters Affecting the Financial Plan - Financial Plan Risks" herein.

### UPDATE TO FISCAL YEAR 2011-12 PROJECTIONS (BEFORE ACTIONS)

The budget gap that must be closed by the 2011-12 Executive Budget is projected at \$10 billion, an increase of \$975 million from the Mid-Year Update. The gaps in future years have also increased. DOB has revised the multi-year forecast of receipts and disbursements since the Mid-Year Update based on a review of operating results to date, updated forecasts for the State and national economies, and other information. The following table summarizes the revisions to the current-services gaps.

The forecast for General Fund tax receipts in each fiscal year of the Financial Plan has been lowered, consistent with the reductions made to the 2010-11 forecast (see above). The forecast for tax receipts reflects updated forecasts for the State and national economies, as well as current-year results to date. Reductions to projected receipts across the plan period account for most of the increase in the gaps compared to the Mid-Year forecast.

DOB has also made a number of other revisions to the multi-year forecast that, in total, have a relatively modest impact on the base gap projections. Significant changes include the results of the November 2010 database update for School Aid, which reduced projected spending in each fiscal year of the plan (\$215 million in 2011-12, growing to \$433 million in 2013-14); a downward adjustment to the level of resources expected to be transferred from other funds to the General Fund in 2011-12, based on an updated analysis of existing fund balances and administrative constraints (\$336 million); and reestimates to the spending projections for a number of agencies, based on updated information.

## EXECUTIVE BUDGET FINANCIAL PLAN

### SUMMARY

Governor Cuomo's Executive Budget would eliminate the General Fund budget gap of \$10 billion in 2011-12, and reduce the budget gaps to \$2.2 billion in 2012-13, \$2.5 billion in 2013-14, and \$4.4 billion in 2014-15. Nearly 90 percent of the Executive Budget gap-closing plan consists of actions that would reduce spending. The Budget does not recommend any tax increases.

<sup>1</sup> Outyear savings assume Medicaid and School Aid grow at their proposed target rates.

To provide a catalyst for the wholesale redesign of State agency operations to meet modern needs, the Executive Budget imposes a 10 percent year-to-year reduction in State Operations spending in the General Fund, and corresponding reductions in other funds, where appropriate.

To help accomplish the goal of fundamentally reducing the State's long-term spending burden, the Governor appointed advisory commissions charged with redesigning current operations and recommending specific savings in the areas of Medicaid, criminal justice, and State agency operations.

- The Medicaid Redesign Team has identified cost-containment measures that will provide approximately \$2.85 billion in gap-closing savings in 2011-12, and restrain growth in future years to the long-term average change of the medical component of the Consumer Price Index (currently estimated at approximately 4 percent annually). The Executive Budget includes specific proposals to achieve the savings identified by the Team.

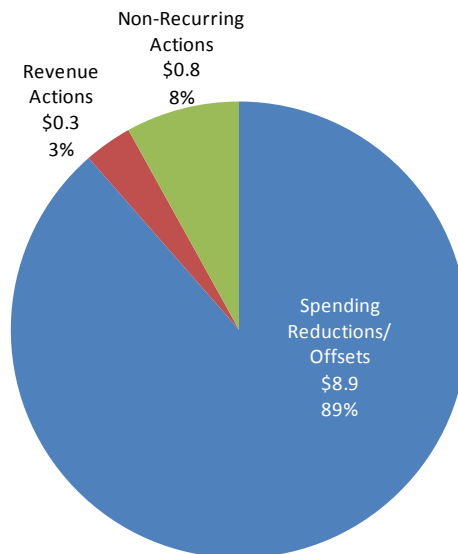

## FINANCIAL PLAN PROJECTIONS

- The Spending and Government Efficiency Commission (“SAGE”) is charged with making recommendations to reduce the number of State agencies, authorities, and commissions by 20 percent over the next four years. The Financial Plan does not currently include specific savings from the SAGE Commission, but the Commission is expected to aid in achieving the aggressive savings targets for State agencies. Further, the projections for State Operations include significant reductions beginning in 2011-12.

### COMPOSITION OF THE 2011-12 GAP-CLOSING PLAN

The chart below summarizes the shares of the \$10 billion gap-closing plan by broad category.

**Shares of 2011-12 Gap-Closing Plan**  
(billions of dollars)

The gap-closing plan includes proposals to lower spending by approximately \$8.9 billion in 2011-12 compared to the current-services forecast. The plan proposes current-services reductions of \$2.85 billion each for School Aid and Medicaid, \$1.4 billion for State agency operations, and \$1.8 billion for a range of other programs and activities. In total, actions to reduce spending from base projections comprise nearly 90 percent of the overall gap-closing plan.

## FINANCIAL PLAN PROJECTIONS

The gap-closing plan anticipates \$340 million in additional revenues in 2011-12 compared to the current-services forecast. The additional revenues would be derived from modernizing the State's tax system, improving voluntary compliance with tax law, and increasing the level of resources available from the Comptroller's Abandoned Property Fund.

Proposed non-recurring resources total \$805 million in 2011-12, comprising approximately 8 percent of the gap-closing plan. The resources are expected to be derived from contributions by the State's public authorities, maintaining a consistent level of pay-as-you-go financing for eligible capital expenses, and use of excess fund balances.

### IMPACT ON SPENDING

State Operating Funds spending would increase by approximately \$900 million in 2011-12, or 1.0 percent. By comparison, inflation is projected at 2.1 percent. The annual growth in State Operating Funds spending is affected by several factors: (a) the deferral of a School Aid payment from 2009-10 to 2010-11; (b) the planned amortization of the State's pension costs above a certain percentage of payroll, as authorized in 2010; (c) the set-aside of a reserve to pay for potential retroactive labor settlements through 2010-11, rather than assuming spending for these settlements in 2011-12; and (d) accounting for the phase-out of the Federal government's payment of an increased share of State Medicaid costs. The State Operating Funds spending total is adjusted to exclude the impact of these factors.

## FINANCIAL PLAN PROJECTIONS

Without adjusting spending to reflect these extraordinary factors, DOB estimates that State Operating Funds spending would total \$86.7 billion in 2011-12, an increase of \$1.7 billion -- 2.0 percent -- from the estimate for the current fiscal year. All Governmental Funds spending, which includes capital projects and Federal operating spending, would total \$132.5 billion, a decrease of \$3.6 billion from the current year.

The annual spending growth in State Operating Funds is affected by the rapid annual increase in debt service and fringe benefits, which are difficult to control in the short-term due to existing constitutional, statutory and contractual obligations. Together, these costs are projected to increase by nearly \$1.0 billion in 2011-12. Debt service on State-supported debt is projected to increase by \$519 million (9.3 percent) in 2011-12. Spending on fringe benefits and fixed costs is projected to increase by \$473 million (7.8 percent). Growth in fringe benefits is due to increases in the State's annual contribution to the New York State and Local Retirement System and the cost of providing health insurance for active and retired State employees. Pension costs are expected to increase by \$204 million (13.9 percent) in 2011-12, even with the amortization of contributions in excess of 9.5 percent of payroll, as authorized in the 2010-11 Enacted Budget. Without amortization, the State contribution in 2011-12 would total approximately \$2.3 billion, or \$635 million above the amount in the Financial Plan.<sup>10</sup> The following table summarizes the major sources of annual change in State spending by major program, purpose, and Fund perspective.

<sup>10</sup> The Financial Plan assumes that the State will amortize pension costs, consistent with the provisions of the authorizing legislation. The State paid its pension bill of \$1.5 billion on March 1, 2011, amortizing \$249 million. The amounts assumed to be amortized over the Financial Plan period are \$635 million in 2011-12, \$789 million in 2012-13, \$1.0 billion in 2013-14, and \$1.1 billion in 2014-15.

## FINANCIAL PLAN PROJECTIONS

---

The 2011-12 gap-closing actions are organized into three general categories: (a) actions that reduce current-services spending in the General Fund on a recurring basis (Spending Reductions/Offsets); (b) actions that increase revenues on a recurring basis (Revenue Actions); and (c) transactions that increase revenues or lower spending in 2011-12, but that cannot be relied on in the future (Non-Recurring Resources).

The sections below provide details on the actions that are recommended for 2011-12 under each category. For additional information on the Budget recommendations for major programs and activities, see “Multi-Year Financial Plan Projections” herein.

### REDUCTIONS/OFFSETS

#### LOCAL ASSISTANCE

Local assistance spending includes financial aid to local governments and non-profit organizations, as well as entitlement payments to individuals. State Operating Funds spending for local assistance is estimated at \$57.3 billion in 2011-12, an increase of \$1.6 billion (2.8 percent) from the current year. Reductions from the 2011-12 current-services forecast for local assistance contribute \$7.5 billion to the General Fund gap-closing plan.

The most significant gap-closing actions in local assistance include the following:

- **Medicaid (\$2.85 billion current services reduction):** The Medicaid Redesign Team has identified a series of programmatic changes and cost-containment measures that will generate gap-closing savings in 2011-12, and will restrain growth in future years. The spending targets are incorporated into the Financial Plan projections.
- **Public Health/Aging (\$81 million):** Reducing the EPIC program to only provide coverage for enrollees during the Medicare Part D coverage gap; modifying the payment rates, eligibility standards, and operation of the Early Intervention (“EI”) program; eliminating reimbursement for optional services provided through the General Public Health Work (“GPHW”); and, eliminating various Department of Health and New York State Office for the Aging programs and reinvesting 50 percent of the savings in a new Local Competitive Performance Grant Program.
- **School Aid (\$2.85 billion on a State fiscal year basis):** Applying a Gap Elimination Adjustment to School Aid that would reduce aid progressively, with low-wealth districts receiving proportionally smaller reductions, and extending the phase-in of the Foundation Aid and Universal Prekindergarten (“UPK”) programs from seven to ten years. Additional savings are expected to be realized in future years by limiting annual School Aid increases to growth in personal income and through reforms to building aid, transportation aid and the Board of Cooperative Education Services (“BOCES”) aid.

## FINANCIAL PLAN PROJECTIONS

---

- **Lottery Aid (\$155 million):** Enhancing the operation of the State’s lottery games and Video Lottery Terminal (“VLT”) facilities (including increased promotion of VLTs and enhancements to Quick Draw and other lottery games) to increase lottery revenues for financing School Aid.
- **STAR (\$125 million):** Capping growth in School Tax Relief (“STAR”) exemption benefits per property taxpayer at 2 percent annually.
- **Education/Special Education (\$181 million):** Realigning reimbursement for certain special education programs, and reducing funding for various other education programs.
- **Human Services/Labor/Housing (\$385 million):**
  - In the area of public assistance, maximizing Federal Temporary Assistance for Needy Families (“TANF”) funds to pay the full benefit costs for TANF-eligible households on public assistance; delaying by one year the final 10 percent increase to the public assistance grant that is scheduled to start on July 1, 2011; eliminating State participation for New York City's shelter supplement program; withholding the public assistance grant for those households not in compliance with Federal work requirements; and reducing reimbursement to New York City for adult homeless shelter costs.
  - In the area of Children and Family Services, reducing Child Welfare disbursements based on improved program performance data; decreasing the State share of the Adoption Subsidy Program from 73.5 to 62 percent; requiring local districts to utilize certain Federal Title XX funds for Child Welfare Services; establishing a competitive grant program to replace a number of separately appropriated programs; increasing the share of Committee on Special Education program costs paid by school districts to better align costs with funding responsibility; restructuring funding for local detention costs and replacing it with increased funding for alternatives to detention and a new competitive grant program; and eliminating the 1.2 percent Human Services Cost of Living Adjustment (“COLA”) scheduled for 2011-12.
- **Local Government Aid (\$334 million):** Continuing the State’s current Aid and Incentives for Municipalities (“AIM”) policy for New York City and reducing AIM for other municipalities, and eliminating additional aid provided to municipalities, other than Yonkers, that host a VLT facility. In the outyears, the savings would be offset in part by new funding for the Local Government Performance and Efficiency Program to reward municipal efficiencies.

## FINANCIAL PLAN PROJECTIONS

---

- **Mental Hygiene (\$307 million):** Eliminating the planned 1.2 percent Human Services COLA; reforming and restructuring the Office of Mental Health (“OMH”), the Office for People with Developmental Disabilities (“OPWDD”) and the Office of Alcoholism and Substance Abuse Services (“OASAS”) programs; enhancing billing and auditing recovery; freezing community bed development and planned program expansion; and, maintaining existing funding levels related to the implementation of the Rockefeller drug law reforms and other programs.
- **Higher Education (\$69 million):** Reducing State support for the State University of New York (“SUNY”) and the City University of New York (“CUNY”) community colleges and reducing the Tuition Assistance Program (“TAP”) program spending by changing eligibility standards and reducing certain grant awards. Savings would be offset in part by renewal of funding for certain scholarship programs.
- **Member Item Deposit (\$85 million):** Repealing the planned deposit of \$85 million and eliminating the fund, which finances legislative and gubernatorial initiatives.

### STATE AGENCY REDESIGN

Agency redesign savings are expected to be achieved through several means including, but not limited to, facility closures reflecting excess capacity conditions, operational efficiencies, and wage and benefit changes negotiated with the State’s employee unions. In total, the proposed reductions are expected to provide an estimated \$1.4 billion in savings compared to the current-services forecast. If the State is unsuccessful in negotiating changes, DOB expects that significant layoffs would be necessary to achieve the State agency savings expected in the Financial Plan.

To achieve the overall savings target, the Executive Budget proposes a 10 percent year-to-year reduction to State agencies financed from the General Fund, and comparable reductions to the following: health care and mental hygiene institutions, City University Senior Colleges (for parity with SUNY), and the operations of the Department of Transportation and Department of Motor Vehicles. The 10 percent reduction was calculated as part of the February 1, 2011 Financial Plan. Accordingly, subsequent revisions to estimated disbursements in 2010-11 have modestly altered the reductions in some agencies. The Judiciary and Legislature, and activities financed with specific dedicated revenues such as tuition, are not included in the reductions.

## FINANCIAL PLAN PROJECTIONS

State agency operations are financed from a number of different appropriations and funds. The following table summarizes the annual reductions in State Operations by major agency. In some instances, only a portion of an agency's operations were exempt from reduction (e.g., SUNY); the table displays only the value of the operations subject to reduction.

### REVENUE ENHANCEMENTS

The Executive Budget proposes \$340 million in revenue enhancements. The following table summarizes the specific proposals. See the Executive Budget "All Funds Financial Plan — Receipts Overview" at [www.budget.state.ny.us](http://www.budget.state.ny.us) for complete descriptions.

## NON-RECURRING RESOURCES

The Executive Budget relies on \$805 million in non-recurring resources in 2011-12. Non-recurring resources include using available funds in the Metropolitan Mass Transportation Operating Assistance Account (“MMTOA”); maintaining a consistent annual level of discretionary pay-as-you-go capital spending, rather than increasing it as planned; negotiating funding agreements with the State’s public authorities, including \$100 million from the New York Power Authority; limiting the State’s liability for School Aid claims; and a number of routine transactions. The table below lists the non-recurring resources.

<b>COMBINED GENERAL FUND GAP-CLOSING PLAN FOR 2011-12</b>	
<b>NON-RECURRING RESOURCES SAVINGS/(COSTS)</b>	
(millions of dollars)	
	<u>2011-12</u>
<b>Non-Recurring Resources</b>	<b>805</b>
MTA Transaction	200
NYPA/Other Authorities	150
Debt Management/Capital Financing	200
School Aid Claims Limited to Nov 2010 Database	100
Recoveries	75
All Other	80

The value of non-recurring resources is substantially less than the annual growth in savings achieved by the recurring gap-closing actions, which increase in value by approximately \$3.5 billion from 2010-11 to 2011-12. As a result, non-recurring resources have no adverse impact on the gap for 2012-13 because they are more than offset by the growth in recurring savings.

## FINANCIAL PLAN PROJECTIONS

### PROJECTED CLOSING BALANCES

If the Executive Budget is enacted as proposed, DOB estimates the State would end 2011-12 with a General Fund balance of \$1.6 billion. Balances in the State’s principal reserve funds would remain unchanged.

GENERAL FUND ESTIMATED CLOSING BALANCE				
(millions of dollars)				
	2010-11	Planned Deposit	Planned Uses	2011-12
<b>Projected Year-End Fund Balance</b>	<b>1,357</b>	<b>346</b>	<b>(94)</b>	<b>1,609</b>
Tax Stabilization Reserve Fund	1,031	0	0	1,031
Rainy Day Reserve Fund	175	0	0	175
Contingency Reserve Fund	21	0	0	21
Community Projects Fund	94	0	(94)	0
Prior Year Labor Agreements (2007-2011)	0	346	0	346
Reserved for Debt Reduction	36	0	0	36

The closing balance includes \$346 million to cover the costs of potential retroactive labor settlements with unions that have not agreed to contracts through 2010-11. The reserve is calculated based on the pattern settlement for the 2006-07 through 2010-11 period agreed to by the State’s largest unions. In prior years, this amount has been carried in the annual spending totals. The Community Projects Fund, which finances discretionary (“member item”) grants allocated by the Legislature and Governor, is expected to decrease by \$94 million, reflecting the proposed repeal of a scheduled \$85 million deposit, elimination of the fund, and the final spend-down of the balance.

## OTHER MATTERS AFFECTING THE FINANCIAL PLAN

### STATE CASH-FLOW PROJECTIONS

#### CURRENT FISCAL YEAR

The General Fund is authorized to borrow resources temporarily from other available funds in the State's Short-Term Investment Pool ("STIP") for up to four months, or to the end of the fiscal year, whichever period is shorter. The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller (available balances include money in the State's governmental funds, as well as certain other money).

The General Fund has used this authorization to meet payment obligations in May, June, September, November, and December 2010. The General Fund may need to rely on this borrowing authority at times during the remainder of the fiscal year (See "2010-11 Operating Results Through February 2011" herein).

The State continues to reserve money on a quarterly basis for debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds, continues to be set aside as required by law and bond covenants.

#### 2011-12 FORECAST

The projected month-end balances for 2011-12 are shown in the table below. The projections assume that the gap-closing plan is enacted in its entirety by the start of the fiscal year. General Fund cash balances are expected to be relatively low during the first half of the fiscal year. It is expected that the General Fund will continue to borrow periodically from STIP.

## FINANCIAL PLAN PROJECTIONS

---

DOB will continue to monitor and manage the State's cash position closely during the fiscal year in an effort to maintain adequate operating balances.

### **CONSENSUS REVENUE FORECAST**

On March 1, 2011, the Executive and each house of the Legislature reached consensus on the Executive Budget economic and revenue forecasts contained herein in the current year and for 2011-12. The consensus forecast will be taken into consideration in negotiations to adopt a budget for 2011-12, but is not reflected in the current Financial Plan revisions. For details of this agreement, please see the "Economic and Revenue Consensus Report" section herein.

### **BUDGET TIMELINE**

The Governor submitted his Executive Budget on February 1, 2011, and amendments on February 22 and March 3. The Legislature has announced a tentative schedule for deliberating on the proposed budget. According to the schedule, joint legislative conference committees would begin on March 15 and issue final conference reports by March 28, and the Legislature would consider joint budget bills from March 28 through 31. The State's new fiscal year begins on April 1, 2011.

### **DEBT LIMIT**

The Debt Reform Act of 2000 limits outstanding State-supported debt to no greater than 4 percent of New York State personal income, and debt service to no greater than 5 percent of All Governmental Funds receipts. The limits apply to all State-supported debt issued after April 1, 2000. The State projects \$33.6 billion in debt outstanding will be subject to the cap as of March 31, 2011, which is equal to approximately 3.55 percent of personal income. Debt service subject to the cap will be approximately \$3.1 billion, equal to 2.34 percent of receipts.

Based on the updated forecast, debt outstanding and debt service costs over the Plan period are expected to remain below the limits imposed by the Debt Reform Act. However, the available room under the debt outstanding cap is expected to decline from \$4.2 billion in 2010-11 to approximately \$850 million in 2013-14. The estimates do not include the potential impact of new capital spending that may be authorized in future budgets, or efforts to curtail existing bonded programs. The debt reform projections are sensitive to changes in State personal income levels. Measures to adjust capital spending and debt financing practices will continue to be needed for the State to stay in compliance with the legal debt limit.

### LONG ISLAND COLLEGE HOSPITAL

SUNY plans to acquire the Long Island College Hospital (“LICH”), a 500-licensed bed facility located in Brooklyn that will be merged into SUNY's Downstate Medical Center. As part of the transaction, SUNY will assume \$152 million of LICH debt (with annual debt service payments of approximately \$17.3 million which will be supported by patient revenue from SUNY). Based on the structure of the transaction, it is expected that the debt will be classified as State-supported debt and subject to the State's debt caps. Legislation has been advanced in the Executive Budget that would authorize the State to assume this debt. The table below reflects the State's available debt capacity, after factoring in the SUNY transaction, which adds \$152 million to the State’s outstanding debt, and other adjustments, such as changes to projected bond-financed capital spending and estimated growth in State personal income over the plan period.

### FINANCIAL PLAN RISKS

The Financial Plan forecasts are subject to many complex economic, social, financial, and political risks and uncertainties, some of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Financial Plan are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from the current Financial Plan projections. In recent fiscal years, actual receipts collections have fallen substantially below the levels forecast in the Financial Plan.

The Financial Plan is based on numerous assumptions, including the performance of the national and State economies and the concomitant receipt of economically sensitive tax revenues in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecasts include the impact of Federal statutory and regulatory changes concerning financial sector activities; the impact of behavioral changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; the impact of an anticipated shift in monetary policy actions on interest rates and the financial markets; the impact of financial and real estate market developments on bonus income and capital gains realizations; and, the impact of household deleveraging on consumer spending and the impact of that activity on State tax collections.

Other risks include increased demand in entitlement and claims-based programs such as Medicaid, public assistance and general public health, above the levels anticipated in the Financial Plan; potential disruptions in the municipal bond market that could affect the timing of State bond sales; and, litigation against the State including, but not limited to, potential challenges to the constitutionality of various actions.

The Financial Plan may be adversely affected by actions taken by the Federal government, including audits, disallowances, changes in aid levels, and changes to Medicaid rules. For example, all Medicaid claims are subject to audit and review by the Federal government. Most recently, the Federal Centers for Medicare and Medicaid Services (“CMS”) requested additional information pertaining to claims for services provided to individuals in developmental centers operated by OPWDD. Among other information, CMS requested that the State provide a detailed description of how rates are developed. Although no official audit has commenced and the rates paid for these services are established in accordance with the methodology set forth in the approved State Plan, adverse action by CMS relative to these claims could jeopardize a significant amount of Federal financial participation in the State Medicaid program.

The Executive Budget is a proposal. There can be no assurance that the Legislature will not make changes to the Executive Budget that have an adverse impact on the budgetary projections set forth herein, or that it will take final action on the Executive Budget before the start of the new fiscal year on April 1, 2011.

## **FINANCIAL PLAN PROJECTIONS**

---

There can be no assurance that the budget gaps will not increase materially from current projections. If this were to occur, the State would be required to take additional gap-closing actions. These may include, but are not limited to, additional reductions in State agency operations; delays in payments to local governments or other recipients of State aid; suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In nearly all cases, the ability of the State to implement these actions requires the approval of the Legislature or other entities outside of the control of the Executive.

The forecast contains specific transaction risks and other uncertainties including, but not limited to, the receipt of certain payments from public authorities; the receipt of miscellaneous revenues at the levels expected in the Financial Plan, including payments pursuant to the Tribal State Compact; and, the achievement of cost-saving measures including, but not limited to, administrative savings in State agencies, including workforce management initiatives, and the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year.

The Financial Plan for 2011-12 includes a reserve of \$346 million to cover the costs of a pattern settlement with all unions that have not agreed to contracts through 2010-11. The pattern is based on the terms agreed to by the State's largest unions for this period. There can be no assurance that actual settlements, some of which are subject to binding arbitration, will not exceed the amounts included in the current Financial Plan. An additional risk is the cost of salary increases for judges (and possibly other elected officials) that could occur in 2011-12 and beyond. The Financial Plan does not include any costs for potential general wage increases after the current labor agreements expire.

# ECONOMIC AND REVENUE OUTLOOK

## THE NATIONAL ECONOMY

As anticipated in the Executive Budget forecast, real household spending grew over 4 percent in the fourth quarter of 2010, the first quarter of such growth since 2006, with real spending finally surpassing its fourth quarter 2007 prerecession peak. The national economy overall, as measured by real U.S. GDP, grew 2.8 percent in the fourth quarter, closely mirroring the Executive Budget estimate. Real residential construction, government spending, and the change in private inventories were weaker than projected, but that weakness was more than offset by substantially stronger net export growth. Consequently, DOB's economic outlook has been revised only slightly from the original Executive Budget forecast. Real U.S. GDP is currently projected to grow 3.2 percent in for 2011, following an increase of 2.9 percent for 2010. The 2011 forecast represents an upward revision of 0.2 percentage point from the original estimate.

Since the release of the Executive Budget, the U.S. Bureau of Labor Statistics has released its 2010 benchmark revision to the national employment data. As expected, the revised data indicate that about 8.8 million jobs were lost during the last downturn, compared to the pre-revision estimate of 8.4 million. In addition, the labor market now appears to have turned around in March 2010 rather than in January as originally estimated. Since February of last year, the private sector has added 1.3 million jobs, an average of 114,000 per month, while total employment has increased by about 1 million, or an average of 93,000 per month. The labor market is expected to add an average of about 200,000 jobs per month for the remainder of the year. On an annual average basis, DOB continues to project an increase in total employment of 1.3 percent for 2011, following a decline of 0.7 percent for 2010.

Although DOB's outlook for employment and wages remains virtually unchanged, the nonwage components of personal income, including transfer, proprietors', interest, and dividend income have been revised up slightly. Personal income is projected to rise 5.3 percent in 2011, following growth of 3.0 percent in 2010. In addition, several indicators of confidence in the sustainability of the national economic recovery have strengthened since earlier in the year, including equity market activity, price growth, and interest rates. DOB now projects inflation, as measured by growth in the Consumer Price Index, of 2.0 percent for 2011, an upward revision of

## FINANCIAL PLAN PROJECTIONS

0.2 percentage point from the Executive Budget estimate. A 10-year Treasury yield of 3.8 percent is now anticipated for the current year, an upward revision of about 0.3 percentage point.

The current outlook continues to call for the national recovery to continue its growth above potential, in large part led by a strong demand from both consumers and businesses. However, there are significant risks to this forecast. With conflict continuing to spread across the Middle East, the risk of oil and gasoline prices remaining elevated is heightened. Higher energy prices act effectively as a tax on household and business spending, and would likely result in lower spending in other areas. This lower spending could diminish the pace of job growth relative to current projections, which could result in an even greater pullback in spending on the part of households. Lower household spending and weaker job growth could both add to the strain already being faced by state and local governments. In contrast, a quick resolution to the turmoil in the Middle East, accompanied by faster global growth than projected could result in stronger growth than is reflected in this forecast.

### THE NEW YORK STATE ECONOMY

The most recent data indicate that the pace of New York employment growth for 2010 was generally consistent with the Executive Budget estimate. While State private employment has been revised up by 0.1 percent compared with the early February forecast, government employment has been revised down by 0.3 percent, leaving the 2010 estimate for an annual average decline in total employment of 0.1 percent unchanged. The revision to 2010 translates into a small decline for 2011 of 0.6 percent, with the revision largely in government sector jobs. However, State wages for the second half of 2010 are likely stronger than reflected in the Executive Budget forecast. Estimated State wage growth for 2010 has been revised up to 4.4 percent from the 4.0 percent increase reflected in the Executive Budget, with projected wage growth for 2011 virtually unchanged at 3.1 percent.

All of the risks to the U.S. forecast apply to the State forecast as well, although with New York the nation's financial capital, the volume of financial market activity and equity market volatility pose a particularly large degree of uncertainty for the State. In addition, with Wall Street still adjusting their compensation practices in the wake of the passage of financial reform, the cash portion of bonus payments for the current and subsequent fiscal years could be lower than projected. In turn, the economic activity generated by the spending of that income could also be lower. An even weaker labor market than projected could also result in lower wages, which in turn could result in weaker household consumption. Similarly, should financial and

## FINANCIAL PLAN PROJECTIONS

real estate markets be weaker than anticipated, taxable capital gains realizations could be negatively affected. These effects would ripple through the State economy, depressing both employment and wage growth. In contrast, stronger national and world economic growth, or a stronger upturn in stock prices, along with even stronger activity in mergers and acquisitions and other Wall Street activities, could result in higher wage and bonuses growth than projected.

### ECONOMIC AND REVENUE CONSENSUS REPORT 2011-12

This report contains the results of the consensus economic and revenue forecasting process conducted by the Executive and the Legislature in advance of the enactment of the State Fiscal Year 2011-12 Budget, pursuant to the provisions of Chapter 309 of the Laws of 1996.

The Consensus Forecasting Conference was held on February 28, 2011. Based on the testimony of experts at the Conference, the outlooks for both the economy and revenues have improved but remain uncertain, though upside and downside risks appear balanced.

#### ECONOMIC FORECAST REVIEW

The economic forecasts contained in the Executive Budget and Legislative reports portray an ongoing economic recovery, albeit one of the weakest of the postwar period. All parties agree that the recovery is on a much stronger footing than a year ago. Aggressive monetary and fiscal policies have played a supportive role in leading the economy through the recovery's early, fragile phase, setting the stage for a handoff to stronger consumer and business spending. The consensus forecasts for 2011 and 2012 real U.S. GDP growth are both 3.3 percent.

All parties expect job growth to continue to accelerate, accompanied by faster, but still historically low, wage growth. Nevertheless, continued high unemployment and depressed home prices will pose risks to consumer spending. Global economic growth and a weak U.S. dollar will continue to result in strong U.S. export growth. In addition, healthy, albeit slower, corporate profits growth is expected to continue to support solid business spending on equipment and software throughout the forecast period. Spending on nonresidential structures is expected to improve but remain weak in light of the overhang in the commercial real estate sector.

Non-Farm Employment	1.3	2.1
3-Month T-Bill Rate	0.3	1.4
CPI	1.9	1.7

## FINANCIAL PLAN PROJECTIONS

The parties agree that the New York State economy improved steadily in 2010, though at a slower pace than the nation. That improvement is expected to continue through 2011 and 2012. The consensus forecast for 2011 nonfarm employment growth is 0.9 percent, representing a substantial acceleration from 2010; the 2011 projections span a relatively narrow range, from growth of 0.7 percent to 1.1 percent. The consensus forecast for 2012 nonfarm job growth is an even stronger 1.6 percent. The consensus forecast for 2011 wage growth is 4.3 percent, representing a very slight deceleration from 2010. Wage growth projections for 2011 range from 3.2 percent to 5.3 percent, with the variation across parties pertaining largely to differing assumptions regarding the weakness of finance and insurance sector bonuses. Some of the variation is also due to the use of alternative data sources. The consensus forecast for 2012 wage growth is a higher 6.0 percent; the variation for 2012 is due largely to varying assumptions pertaining to the expiration of the lower Federal tax rates at the end of that year, and its impact on taxpayer behavior. The consensus forecast for 2011 personal income growth is 5.1 percent. Projections for 2011 personal income growth range from 4.9 percent to 5.5 percent, a relatively tight range that reflects the impact of the temporary reduction in the social security tax. Personal income growth is expected to decelerate in 2012, due largely to the expiration of the social security tax cut.

CONSENSUS N.Y. FORECAST		
CALENDAR YEAR		
Percent Change		
	<u>2011</u>	<u>2012</u>
Non-Farm Employment	0.9	1.6
Personal Income	5.1	4.0
Wages	4.3	6.0

All parties expect the national recovery to proceed at a moderate pace, with the greatest risks stemming from labor and housing market weaknesses, as well as elevated energy and other commodity prices. Sources of upside risk include stronger than expected expansion of the global economy. The greatest risks to the consensus forecast for the New York economy pertain to conditions in the labor and financial markets. Wall Street is still the largest single source of volatility in State tax collections. A shift in the financial industry's compensation practices, including a reduction in the cash portion of executive bonuses in favor of deferred income in the form of stock grants, only adds uncertainty to the State's income and revenue projections. In addition, the Federal Reserve will eventually exit from the current record-low interest rate environment and the extraordinary expansion of its balance sheet. Historically, shifts from an expansionary to a less accommodative policy stance have tended to have a negative impact on the financial markets, bonuses, and therefore on State wages. In contrast, a stronger national and global economy could increase the demand for New York financial and other business services, presenting upside risk to the forecast.

### REVENUE FORECAST REVIEW

Section 23 of the State Finance Law defines receipts subject to consensus as the combined total of All Funds tax receipts, General Fund miscellaneous receipts, and lottery revenues. Uncertainty surrounding the strength of the recovery, accurate accounting of year-to-year changes in financial sector bonus payments, and incorporation of the risks recognized in varying degrees by each of the five parties resulted in modestly different revenue forecasts. The parties agreed that the upside risks shown below modestly outweighed the downside risks and agreed to increase the receipts estimate by \$155 million above the Executive Budget in total for fiscal years 2010-11 and 2011-12. While the parties agreed that New York's recovery will continue, the parties offered differing opinions as to the speed and strength of this recovery. Risk factors include:

- Record corporate profits could translate into increased corporate tax receipts;
- Employment, wage, non-wage income, and capital gains growth could exceed expectations;
- Higher interest rates could cause a deceleration of the recovery;
- Lower prices and transactions could result from an excess supply of commercial real estate; and
- Higher energy prices, weak home prices and restrained employment growth could result in weak growth in consumer spending.

The parties agreed that actual receipts over the two-year period could be higher than those embodied in the consensus agreement. Expert testimony provided at the Consensus Hearing maintained that the actual strength of the recovery had yet to be demonstrated in current economic data. The consensus forecast could under-predict the strength and timing of the ongoing recovery should this scenario be realized.

Alternatively, one or more of the negative risk factors noted above could result in slower than anticipated economic growth in New York. This, in turn, could result in actual receipts that are below those incorporated in the consensus agreement.

# **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

## **INTRODUCTION**

This section presents the State's updated multi-year projections for receipts and disbursements, including the impact of the 2011-12 Executive Budget proposals. The projections for School Aid and Medicaid assume that spending will be held to target levels, as described earlier. State law requires the Governor to submit, and the Legislature to enact, a balanced plan of receipts and disbursements on a cash-basis for the General Fund. However, over 40 percent of total State spending for operating purposes is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, School Aid, higher education, transportation and mental hygiene. Thus, the multi-year projections and growth rates are presented, where appropriate, on both a General Fund and State Operating Funds basis.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates as a predictor of the State's future financial position is likely to diminish as one moves further from the current year and budget year estimates. Accordingly, in terms of the outyear projections, 2012-13 is the most relevant from a planning perspective.

## **MULTI-YEAR PROJECTIONS**

### **BUDGET GAPS**

DOB estimates that the Executive Budget, if enacted as proposed, would result in a balanced General Fund Financial Plan in 2011-12 and leave projected gaps that total approximately \$2.2 billion in 2012-13, \$2.5 billion in 2013-14, and \$4.4 billion in 2014-15. The net operating deficits in State Operating Funds are projected at \$1.7 billion in 2012-13, \$1.9 billion in 2013-14, and \$3.7 billion in 2014-15.

The imbalances projected for the General Fund and State Operating Funds in future years are similar because the General Fund is the financing source of last resort for many State programs. Imbalances in other funds are typically financed by the General Fund.

## FINANCIAL PLAN PROJECTIONS

---

### SPENDING

Over the multi-year Financial Plan, spending is expected to increase by an average rate of 4.6 percent in the General Fund and 4.0 percent in State Operating Funds. The spending projections incorporate the target growth rates in the areas of Medicaid and School Aid, as well as an estimate of the effect of national health care reform on State health care costs. Spending growth reflects an expected return to a lower Federal matching rate for Medicaid expenditures after June 30, 2011, which will increase the share of Medicaid costs that must be financed by State resources, and the expected loss of temporary Federal aid for education. Spending growth is driven primarily by Medicaid, education, pension costs, employee and retiree health benefits, social services programs and debt service.

### RECEIPTS

Overall, State tax receipts growth in the three fiscal years following 2011-12 is expected to range from 1.9 percent to 5.2 percent. This is consistent with the sunset of the personal income tax surcharge after tax year 2011, and projected trend economic growth in the New York economy.

Outyear tax receipts are unchanged from the Executive Budget with the exception of personal income tax receipts which are now projected to be \$100 million higher in 2012-13, and \$140 million higher in each of 2014-15 and 2014-15. This change is the result of an increase in expected capital gains realizations and non-wage income, as reflected in estimated tax receipts, offset by higher refunds resulting from the new proposal to increase the long-term care tax credit.

### MEDICAID

The Financial Plan projects growth in the range of 4 percent annually for overall State Medicaid spending, after adjusting for the phase-out of enhanced FMAP. This reflects the target growth rate for Medicaid proposed in the Executive Budget, which is the long-term average change in the medical component of the Consumer Price Index.

<sup>1</sup> To conform the Financial Plan classification of State Operating Funds spending to the classification followed by the State Comptroller, approximately \$3 billion in Medicaid spending supported by a transfer from Federal Funds to the State Mental Hygiene Patient Income Account is now classified as State spending.

<sup>2</sup> Includes operational costs that support contracts related to the management of the Medicaid program and various activities to ensure appropriate utilization.

Medicaid growth over the plan period is affected by estimates of increasing Medicaid enrollment, rising costs of provider health care services (particularly in managed care), and higher levels of utilization, as well as the expiration of enhanced levels of Federal aid. The number of Medicaid recipients is expected to exceed 5.4 million at the end of 2012-13, an increase of 12.3 percent from the 2010-11 caseload of 4.9 million.

<sup>1</sup> Does not include Medicaid spending in other State agencies, DOH State operations spending, or the local government share of total Medicaid program spending.

<sup>2</sup> Excludes benefits in other State agencies. Costs in 2012-13 reflect the reconciliation of the local share benefit for 2011-12 that will occur in 2012-13.

The expiration of the enhanced FMAP will increase spending by over \$600 million from 2011-12 to 2012-13, primarily due to the reconciliation of costs between the State and counties related to the Medicaid cap. After adjusting for the impact of enhanced FMAP, State spending for Medicaid is expected to grow from \$15.1 billion in 2011-12 to \$16.9 billion in 2014-15. Overall Medicaid growth results, in part, from the takeover of local Medicaid costs under the cap, the combination of projected increases in service utilization, and medical care cost inflation that affects nearly all categories of service (e.g., hospitals, nursing homes), as well as rising enrollment levels.

### MENTAL HYGIENE

Local assistance spending in mental hygiene is projected to grow on average by 4.4 percent annually over the plan period, reaching a total of \$4.4 billion in 2014-15. This growth is attributable to increases in the projected State share of Medicaid costs and projected expansion of the various mental hygiene service systems, including: increases primarily associated with the OPWDD NYS-CARES program; the New York/New York III Supportive Housing agreement and community beds that are currently under development in the OMH pipeline, as well as funds for additional supported housing beds and associated support services for individuals leaving certain New York city adult homes, pursuant to a Federal district court order; and several chemical dependence treatment and prevention initiatives in OASAS.

## FINANCIAL PLAN PROJECTIONS

### SCHOOL AID

State funding for School Aid is paid from two State sources, the General Fund and lottery revenues (including VLTs). On a school year basis, following a reduction in 2011-12, School Aid is projected to grow at rates based on changes in New York State personal income. The Executive Budget proposes a \$2.8 billion Gap Elimination Adjustment (“GEA”) for the 2011-12 school year. Low wealth districts would receive proportionately smaller reductions than high-wealth districts. In the future, the GEA would be scaled to limit growth in School Aid to the target rate, which is based on growth in New York State personal income. The Executive Budget recommends maintaining operating aid categories at current levels. Foundation Aid, the largest formula aid, is recommended to remain at \$14.9 billion in both 2011-12 and 2012-13.

<sup>1</sup>Building, Transportation, High Cost and Private Special Education, BOCES, and Special Services Aids

Over the multi-year Financial Plan period, revenues available to finance School Aid from lottery sales are expected to increase nominally. Increasing revenues from VLTs in 2012-13 and 2013-14 reflect the anticipated opening of a VLT facility at Aqueduct Racetrack by October 2011.

### SOCIAL SERVICES

The Office of Children and Family Services (“OCFS”) provides funding for programs including foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. OCFS oversees the State’s system of family support and child welfare services administered by local departments of social services and community-based organizations. OCFS spending is projected to increase by \$540 million, from \$1.7 billion in 2011-12 to \$2.2 billion by 2014-15, driven by expected growth in claims-based programs, including Child Welfare Services.

The Office of Temporary and Disability Assistance (“OTDA”) administers local assistance programs that provide cash benefits and supportive services to low-income families. The agency also provides a State supplement to the Federal Supplemental Security Income benefit for the elderly, visually handicapped, and disabled. The State share of OTDA spending is expected to grow by approximately 5 percent annually from 2011-12 through 2014-15, primarily due to higher costs of public assistance programs.

### STATE OPERATIONS

Personal service spending includes wages and compensation for overtime, holiday and temporary services. It does not include fringe benefits, which are accounted for under General State Charges. Non-personal service spending accounts for the costs of operations other than employee wages and benefits. It includes utilities, rent, equipment, supplies and materials, telecommunications, information technology, travel, training, medical supplies, prescription drugs, and certain contractual obligations.

Growth in State Operations spending over the multi-year Financial Plan is concentrated in agencies that operate large facilities, such as the State University, the Mental Hygiene agencies, Corrections and Community Supervision, and Children and Family Services. The main causes of growth include inflationary increases in operating costs expected for food, medical care and prescription drugs, and energy costs in State facilities. It also reflects higher costs for ongoing initiatives, including the civil commitment program for sexual offenders.

### GENERAL STATE CHARGES

The General State Charges (“GSCs”) account for the costs of fringe benefits provided to State employees and retirees of the Executive, Legislative and Judicial branches, as well as for certain fixed costs. GSCs are projected to grow at an average annual rate of 7 percent over the plan period. The growth is mainly due to anticipated cost increases in pensions and health insurance for active and retired State employees.

Under legislation enacted in 2010, the State and local governments may amortize a portion of their pension costs beginning in 2010-11. Specifically, pension contribution costs in excess of the amortization thresholds, which are 9.5 percent of payroll for the Employees’ Retirement System (“ERS”) and 17.5 percent for the Police and Fire Retirement System (“PFRS”) in 2010-11, may be amortized. The threshold for amortization increases by 1 percentage point annually (e.g., from 9.5 percent in 2010-11 to 10.5 percent in 2011-12). The State’s ERS pension contribution rate as a percentage of payroll is expected to grow from 10.5 percent in 2011-12 to 12.5 percent in 2014-15, after amortization. The PFRS pension contribution rate is expected to be 18.5 percent in 2011-12, growing to 20.5 percent by 2014-15. The authorizing legislation also permits amortization in all future years if the actuarial contribution rate is greater than the amortization threshold, which may increase or decrease by no more than one percentage point for each year. Repayment of the amortized amounts will be made over a ten-year period at an interest rate to be determined by the State Comptroller. The assumed interest rate is 5 percent. For planning purposes, the Financial Plan assumes that the State will authorize pension costs, consistent with the provisions of the authorizing legislation. The amounts assumed to be amortized over the Financial Plan period total \$249 million in 2010-11, \$635 million in 2011-12, \$789 million in 2012-13, \$1.0 billion in 2013-14, and \$1.1 billion in 2014-15.

## FINANCIAL PLAN PROJECTIONS

Pension costs also include the State’s payment for the retirement incentives approved in 2010. The Financial Plan currently assumes an annual State payment of \$70 million.

Spending for employee and retiree health insurance costs is expected to grow at a consistently high rate through 2014-15, with annual growth reflecting expected annual premium increases of over 8 percent. Spending for employee and retiree health care costs is detailed below.

<b>FORECAST OF NEW YORK STATE EMPLOYEE HEALTH INSURANCE COSTS</b> (millions of dollars)

All numbers reflect the cost of health insurance for GSCs (Executive and Legislative branches) and the Office of Court Administration.

### TRANSFERS TO OTHER FUNDS (GENERAL FUND BASIS)

General Fund transfers help finance certain capital activities, the State’s share of Medicaid costs for State-operated mental hygiene facilities, debt service for bonds that do not have dedicated revenues, and a range of other activities.

A significant portion of the capital and operating expenses of the Department of Motor Vehicles (“DMV”) are funded from the Dedicated Highway and Bridge Trust Fund (“DHBTF”). The Fund receives dedicated tax and fee revenue from the Petroleum Business Tax, the Motor Fuel Tax, the Auto Rental Tax, highway use taxes, transmission taxes and motor vehicle fees administered by DMV. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of the Department of Transportation (“DOT”) and DMV, debt service on DHBTF bonds and transfers for debt service on bonds that fund the Consolidated Highway Improvement Programs (“CHIPS”) and local transportation programs – exceed current and projected revenue deposits and bond proceeds.

Transfers to other funds are expected to total \$6.8 billion in 2012-13, an annual increase of over \$488 million, or 7.8 percent. This increase is mainly due to higher costs related to the Medicaid State share transfers, capital projects and projected debt service payments.

Support for capital projects is expected to increase by 32.5 percent in 2012-13, mainly for economic development projects and statewide technology initiatives.

With the exception of the mental hygiene system, the subsidies to all other operational areas are projected to remain relatively flat through 2014-15. Mental hygiene transfers to other funds are offset in part by transfers from other funds (not displayed on table).

## 2010-11 PRELIMINARY OPERATING RESULTS THROUGH FEBRUARY 2011

Based on preliminary, unaudited results, the General Fund ended February 2011 with a closing balance of \$6.4 billion, \$1.3 billion higher than the estimate in the February 1, 2011 Financial Plan (the last public estimate of monthly cash receipts and disbursements). This variance is mainly due to higher tax receipts, including transfers after debt service, (\$521 million); lower Medicaid spending (\$310 million); CUNY payment delays (\$277 million); and earlier than expected receipt of fringe benefit payments from other funds that lowers general state charges (roughly \$200 million).

General Fund receipts, including transfers from other funds, were \$423 million above the forecast reflecting higher tax collections partly offset by lower miscellaneous receipts mainly abandoned property. General Fund disbursements, including transfers to other funds, were \$839 million below planned levels, mainly due to lower Medicaid spending, delayed higher education payments, earlier than expected fringe benefit reimbursements, and slower than expected spending across various local programs. DOB has revised the annual estimates for receipts and disbursements in this Executive Budget Financial Plan. (See “Financial Plan Overview” herein) to reflect the impact of operating results to date that are not timing related.

The following table compares preliminary, unaudited results through February 28, 2011 to the estimates included in the 2011-12 Executive Budget Financial Plan (dated February 1, 2011) and the 2010-11 Enacted Budget Financial Plan (dated August 20, 2010), followed by a comparison to actual results for the same 11-month period in 2009-10.

### SUMMARY EXPLANATION OF VARIANCE FROM PLAN

Preliminary General Fund tax collections through February 2011 are \$521 million above the 2010-11 Executive Budget Financial Plan projections. Personal income tax collections accounted for \$269 million due mainly to higher withholding that is expected to be lower in March. The estate tax generated \$80 million more than expected as a result of higher than anticipated number of payments from large estates. Business taxes exceeded the estimates due to higher than anticipated collections from corporate franchise tax audits.

Non-tax receipts through February were \$98 million lower than projected mainly due to delayed abandoned property receipts (\$60 million).

The most significant spending variances include:

- Medicaid (\$310 million below projection) due to variations in medical service provider claiming, including the timing of projected claims from local governments.
- Higher Education (\$277 million below projection) due to the timing of a payment to New York City for reimbursement of operation costs associated with CUNY Senior and Community Colleges that was previously expected to be made in February 2011 and now expected in early March 2011. A significant portion of the Senior College payment is not statutorily required until June 2011.
- All Other Education (\$71 million below projection) reflects a combination of slower than expected claims processing.
- Children and Families (\$52 million below projection) is primarily attributable to delayed spending in adoption subsidies, youth programs, and various other programs.
- General State Charges (\$228 million below projection) is largely due to earlier than expected escrow receipts from other funds (\$207 million) and lower social security payments (\$15 million).
- Transfers to Other Funds (\$68 million above projection) includes higher State Share Medicaid transfer associated with mental hygiene programs (\$58 million) and accelerated transfers to various other funds that were previously planned in March (\$44 million), partly offset by earlier than expected bond reimbursements that lower spending (\$32 million) for Capital Projects and a modest variance in debt service transfers.

<sup>1</sup> Includes transfers from other funds after debt service.

Receipts through February 2011 were \$1.8 billion, or 3.9 percent higher than the same period in the prior fiscal year. Total tax receipts are \$2.5 billion higher mainly due to the growth in personal income tax collections, user taxes and fees, estate taxes, and the real estate transfer tax, resulting from both law changes and the economic recovery. Business tax collections fell by less than 2 percent due mainly to the timing of refunds. The decline in non-tax revenue is mainly due to receipts that were not received or received in lower amounts in 2011, including 18-A assessment (\$342 million), the Energy Research and Development Authority (\$90 million), Tribal Nations (\$78 million), Insurance (\$65 million), SUNY non-tuition revenues (\$55 million), and lower fine collections (\$60 million).

Disbursements through February 2011 were \$228 million, or 0.5 percent, higher than the same period in the prior fiscal year. Spending growth is affected by the delay of the end of year school aid payment (\$2.06 billion) from March 2010 to the statutory deadline of June 1, 2010. Spending through February 2011 totaled \$40.8 billion, or \$1.8 billion below the 2009-10 level, excluding the school aid delay.

The most significant annual spending changes include: lower general school aid spending to date that results mainly from savings enacted in the 2010-11 Budget (\$771 million); roughly \$550 million in lower state operations spending reflecting the payment of retroactive salary settlements for employees represented by NYSCOPBA, PBA and BCI in 2009-10 and the impact of strict spending controls; the elimination of approximately \$300 million in annual AIM funding for New York City that would have been paid by December; delay of a \$300 million CUNY Senior College payment from 2008-09 to June of 2009-10, which increased 2009-10 spending

relative to the current year; higher State payments for employee and retiree health insurance (\$221 million); and the availability of Federal funding for public assistance benefit costs which reduced General Fund spending (\$196 million);

State Operating Funds disbursements were \$1.4 billion below the Executive Budget forecast mainly driven by the General Fund spending variances described above. The most significant other funds variances include a delayed payment from the MTA Financial Assistance Fund (\$211 million) and lower public health spending (\$96 million).

Capital Projects Funds disbursements were lower than Executive Budget estimates primarily due to underspending in higher education, especially SUNY (\$190 million), transportation (\$103 million), health and social welfare (\$96 million), and economic development projects (\$94 million).

Lower Federal Operating Funds spending is largely due to timing delays in Medicaid (\$340 million), public assistance benefits and Flexible Fund for Family Services payments (\$325 million), Children and Family Services (\$152 million), and special education programs (\$98 million). School Aid spending was \$379 million above the plan primarily due to continued claiming of ARRA funds, primarily by school districts.

# **GAAP-BASIS FINANCIAL PLAN/ OTHER POST-EMPLOYMENT BENEFITS**

## **GAAP-BASIS FINANCIAL PLAN**

The State Budget is required to be balanced on a cash basis, which is DOB's primary focus in preparing and implementing the State Financial Plan. State Finance Law also requires the Financial Plan be presented for informational purposes on a GAAP basis. The GAAP-basis plans model, to the extent practicable, the accounting principles applied by the Office of the State Comptroller ("OSC") in preparation of the annual Financial Statements. Tables comparing the cash-basis and GAAP-basis General Fund Financial Plans are provided at the end of this Financial Plan.

In 2010-11, the General Fund GAAP Financial Plan shows total revenues of \$46.4 billion, total expenditures of \$55.8 billion, and net other financing sources of \$9.4 billion, resulting in an operating deficit of \$23 million, which increases the projected accumulated deficit to \$3.6 billion. These results reflect the net impact of the Enacted Budget gap-closing actions.

In 2011-12, the General Fund GAAP Financial Plan shows total revenues of \$48.3 billion, total expenditures of \$57.4 billion, and net other financing sources of \$9.4 billion, resulting in an operating surplus of \$267 million, which decreases the projected accumulated deficit to \$3.4 billion. These results reflect the net impact of the Executive Budget gap-closing actions. DOB's detailed GAAP Financial Plans for 2010-11 through 2014-15 are provided in the Financial Plan Tables.

## **OTHER POST-EMPLOYMENT BENEFITS**

Substantially all of the State's employees become eligible for post-retirement benefits if they reach retirement while working for the State. In accordance with the Governmental Accounting Standards Board Statement 45 ("GASB 45"), the State must perform an actuarial valuation every two years for purposes of calculating Other Post employment Benefits ("OPEB") liabilities. As disclosed in Note 13 of the State's Basic Financial Statements for fiscal year 2009-10<sup>11</sup>, the Annual Required Contribution ("ARC") represents the annual level of funding that, if set-aside on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded liabilities of the plan over a period not to exceed 30 years. Amounts required but not actually set aside to pay for these benefits are accumulated with interest as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for 2009-10, an actuarial valuation of OPEB liabilities was performed as of April 1, 2008, with results projected to April 1, 2009 for the fiscal year ended March 31, 2010. The valuation calculated the present value of the actuarial accrued total liability for benefits as of March 31, 2010 at \$55.9 billion (\$46.3 billion for the

## FINANCIAL PLAN PROJECTIONS

---

State and \$9.6 billion for SUNY). This was determined using the Frozen Entry Age actuarial cost method, and is amortized over an open period of 30 years using the level percentage of projected payroll amortization method.

The net OPEB liability for 2009-10 totaled \$3.3 billion (\$2.7 billion for the State and \$0.6 billion for SUNY) under the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. This was \$2.1 billion (\$1.7 billion for the State and \$0.4 billion for SUNY) above the payments for retiree costs made by the State in 2009-10. This difference between the State's Pay-As-You-Go ("PAYGO") costs and the actuarially determined required annual contribution under GASB 45 reduced the State's currently positive net asset condition at the end of 2009-10 by \$2.1 billion.

The State's actuarial consultant has provided an updated calculation of the ARC and annual OPEB costs. The updated calculation will ultimately be reflected in the financial statements for the State and SUNY for fiscal year 2010-11. The updated calculation shows the present value of the actuarial accrued total liability for benefits at \$60.2 billion (\$50.1 billion for the State and \$10.1 billion for SUNY). In future updates, DOB expects the estimate of OPEB costs to increase substantially. The causes of this anticipated increase include: higher assumed increases in the cost of health care, implementation of the federal Patient Protection and Affordable Care Act, and decreased interest rates.

GASB does not require the additional costs to be funded on the State's budgetary basis, and no funding is assumed for this purpose in the Financial Plan. On a budgetary (cash) basis, the State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis. (See "Multi-Year Financial Plan Projections" for a summary of projected spending for this purpose over the Plan period.)

As noted, there is no provision in the current Financial Plan to pre-fund the GASB 45 liability. If such liability were pre-funded at this time, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of the Governor's Office of Employee Relations ("GOER"), Civil Service, and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices in light of existing fiscal conditions.

## **FISCAL IMPACT ON LOCAL GOVERNMENTS**

The Executive Budget Financial Plan included a summary of the estimated fiscal impact on municipalities, supplemented with detailed tables. Revised tables are included in this Financial Plan update to reflect a correction to the analysis presented with the initial Executive Budget.

Included with the initial release of the Executive Budget was a statewide Tax Modernization Initiative. This proposal would mandate electronic filing by all sales tax vendors and increase personal income tax e-filing, which is expected to improve data matching with existing IRS and other data sources, resulting in increased revenue through denied refunds and more accurate final returns. In addition, the Tax Commissioner would be given discretion to require automated point-of-sale accounting systems and more frequent filing from sales tax filers who have a poor filing record. As a result, in the local 2012 fiscal year, New York City is expected to realize additional personal income and sales tax receipts of \$36 million, while all other classes combined would see increased sales tax receipts totaling \$22 million.

With this change, the estimated negative impact on all classes of municipalities is modestly reduced to \$1.77 billion, from \$1.83 billion as originally projected.

In addition, the Executive amendments include new legislation to provide school districts with flexibility in their use of State aid for reimbursable expenses associated with the purchase of textbooks, library materials, computer software, and computer hardware.

# FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

The notes to the Financial Plan tables herein should be read in conjunction with the tables that follow.

## NOTE 1 — BASIS OF ACCOUNTING

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

## NOTE 2 — FUND TYPES AND PERSPECTIVES

The state records its transactions in the following fund types:

### Governmental Funds

**General Fund** - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys deposited to the credit of the General Fund during the fiscal year from current revenues (taxes, fees, and miscellaneous receipts including certain repayments of State advances) and transfers.

**Special Revenue** - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances a number of State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting on the basis of GAAP.

**Debt Service** - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations are paid from Debt Service funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt and certificates of participation. Lease-purchase payments for State University, Health and Mental Hygiene facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

**Capital Projects** - These funds finance a variety of capital construction costs including: (1) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (2) spending for highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects, and buildings and other capital facilities required by various State departments and agencies; (3) payments to local governments public authorities to help finance capital programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (4) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds including the General Fund, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

### **State Operating Funds**

The State Funds operating budget comprises the General Fund and other State supported activities financed by dedicated revenues in State Special Revenue funds, as well as Debt Service funds accounting for the payment of debt service on all tax-financed State long-term debt. All capital spending, regardless of financing source, is included in the Capital budget.

### **Proprietary Funds**

**Internal Service Funds** - Account for the financing of goods or services supplied by one State agency to other State agencies or governmental units on a cost reimbursement basis.

**Enterprise Funds** - Account for operations that are similar to private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes and are combined with the General Fund for purposes of reporting on a GAAP basis.

### **Fiduciary Funds**

**Private-Purpose Trust Funds** - Accounts for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

**Pension Trust Fund** - Accounts for the cash basis results of operations for the administration portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

**Agency Funds** - Accounts for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

---

### NOTE 3 — DISBURSEMENT DESCRIPTIONS

The State's Financial Plan and reporting includes only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

**Local Assistance Grants** - Include payments to counties, cities, towns, villages, school districts and other local entities as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations.

**Personal Service** - Include the payment of salaries and compensation for State employees.

**Non-Personal Service** - Includes the payment of miscellaneous contractual payments, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other miscellaneous operating costs.

**General State Charges** - Include costs mandated by statute, collective bargaining agreements or court order. Charges in this category can be further subdivided into the following:

Fringe Benefits: Contributions to pension systems, the employer's share of social security contributions, employer contributions toward the cost of health insurance, workers' compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services.

Fixed Costs: For State payments in lieu of taxes as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defense(s) by private counsel or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

**Debt Service** - Disbursements include payments made for tax-financed State debt service on long-term debt; contractual-obligation and lease-purchase arrangements with several public authorities and municipalities; and lease-purchase payments for State University, Health, and Mental Hygiene facilities.

**Capital Projects** - Disbursements include payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and state mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing as well as environmental quality projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

---

**Bond Proceeds** - Includes the proceeds of general obligation bonds and short-term notes issued in the form of commercial paper or Bond Anticipation Notes (“BANs”) and are stated net of notes redeemed from the proceeds of permanent bonds or reissued notes.

**Operating Transfers** - Constitutes legally authorized transfers from a fund receiving revenues, to a fund through which disbursements will ultimately be made.

### NOTE 4 — RESERVATIONS OF GENERAL FUND BALANCE

Fund balance may be legally segregated for specific future use or set aside informally for specified purposes. The following terms are used in the reporting of reservations of General Fund Balance:

#### **Tax Stabilization Reserve Fund**

Created pursuant to law in order to provide a reserve to finance a cash basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending. The balance may not exceed 2.0 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year-end. These loans must be repaid within six years in no less than three annual installments.

#### **Rainy Day Reserve Fund**

Created pursuant to law to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to three percent of projected General Fund spending during the fiscal year immediately following the then-current fiscal year.

#### **Contingency Reserve Fund**

Created pursuant to law to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is in excess of \$25 million and such payments are not previously appropriated, or emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

#### **Community Projects Fund**

Created pursuant to law to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. The enacted State budget typically includes lump sum appropriations for the Governor, the New York State Senate and the New York State Assembly, to be designated for various grants, awards and contracts with local governments, not-for-profit organizations and community groups. During the fiscal year, the Governor, the New York State Senate and the New York State Assembly allocate their respective appropriations to the intended recipient organizations and grant amounts.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

### Informal Designation of Fund Balance

From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals. These amounts are typically identified with the phrase “reserved for.”

### NOTE 5 — STATE/FEDERAL REPORTING

Certain Special Revenue accounts formerly reported in the Financial Plan as Federal Operating Funds have been reclassified to State Operating Funds. This treatment is consistent with reporting by the Office of State Comptroller. Spending adjustments for 2010-11 and 2011-12 are detailed below.

### NOTE 6 — ITEMS AFFECTING 2010-11 TO 2011-12 COMPARABILITY

#### School Aid Payment

The end-of-year school aid payment (\$2.06 billion) scheduled for the last quarter of 2009-10 was paid in the first quarter of 2010-11, as authorized in statute. This was done to carry forward the 2009-10 budget shortfall into 2010-11.

#### American Recovery and Reinvestment Act of 2009

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (ARRA). This Act contains provisions for direct Federal aid for fiscal relief, consisting of increases in the Federal matching rate for eligible State Medicaid expenditures and funds provided through the Federal State Fiscal Stabilization Fund to restore proposed reductions in education, higher education, and to maintain essential government services.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

### **Pension Amortization**

The Financial Plan projections assume that the State will amortize pension costs above a percentage of payroll, as authorized by legislation enacted in 2010. The percentage of payroll above which costs may be amortized increases annually as follows: 9.5 percent in 2010-11; 10.5 percent in 2011-12; 11.5 percent in 2012-13; 12.5 percent in 2013-14; and 13.5 percent in 2014-15. The amortization reduces the State's annual pension contribution in the short term, but results in long-term costs. The amounts expected to be amortized total \$249 million in 2010-11, \$635 million in 2011-12, \$789 million in 2012-13, \$1 billion in 2013-14, and \$1.1 billion in 2014-15.

### **Retroactive Labor Settlements**

Several unions have not agreed to labor settlements for contract periods prior to 2011-12. In recent years, the State has included spending in the Financial Plan for potential settlements, which have not materialized. The Current Financial Plan costs includes a reserve of General Fund balance for this purpose. The amount of the reserve is calculated on the assumption that the unions that have not agreed to contracts will receive the same terms and conditions as the unions with ratified contracts.

## **NOTE 7 — OFF-BUDGET TRANSACTIONS**

Represents certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities, rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.

## **NOTE 8 — GENERAL FUND/HCRA COMBINED GAP**

The current HCRA authorization expires on March 31, 2011. HCRA is projected to remain balanced through 2014-15, however, any unaddressed shortfall would need to be financed by the General Fund.

## **NOTE 9 — MTA FINANCIAL ASSISTANCE FUND**

The Metropolitan Commuter Transportation Mobility Tax (Mobility Tax) is imposed on certain employers and self-employed individuals engaging in business within the metropolitan commuter transportation district. This revenue source is collected by the State on behalf of, and disbursed in its entirety to, the MTA. Due to the requirements of the enabling legislation, the tax is reflected in the State's Special Revenue Funds, increasing both receipts and disbursements by an actual \$1.3 billion in 2009-10, growing to an estimated \$2.0 billion in 2014-15.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

### **NOTE 10 — CHANGES TO THE MEDICAID PROGRAM**

As of January 2006, the State pays for the entire non-Federal share of the FHP program and any annual Medicaid increases for counties above a fixed level. In accordance with statutory indexing provisions, 2010 Medicaid payments by local governments will not be allowed to increase by more than 3.0 percent over 2009 levels.

### **NOTE 11 — STATEWIDE CASH FLOW ADMINISTRATION**

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, resulting from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted with the Executive Budget. Loans may be granted only for amounts that the Director of the Budget certifies are “receivable on account” or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

### **NOTE 12 — OUTSTANDING TEMPORARY LOANS SUMMARY**

The total outstanding loan balance as of March 31, 2010 was \$1.5 billion, comprised of advances for bond-reimbursable capital spending pending the receipt of bond proceeds (\$735 million), activities that are financed initially by the State pending Federal receipt governed by Federal cash management regulations (\$318 million), State Special Revenue Funds (\$377 million), and Proprietary Funds (\$56 million).

The total loan balance typically increases throughout the State fiscal year, reaching its peak between the second and third quarters. The spike mainly reflects the payment of lottery aid for education, which is financed in large part by a loan that is repaid over the course of the year as lottery revenues are received.

Reflects certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.

NOTE 1: Cash disbursements can vary from available appropriations for a particular Financial plan category due to intra-year transfers or suballocation, changes in the amount and timing of carry-out spending across years, and the use of agency appropriation interchange authorization. Appropriation amounts include new appropriation authority, reappropriations, and other appropriation amendments, but does not include carry-in authority from prior years subject to lapse.

NOTE 2: Not reflected in this table are the portions of Local Assistance appropriation authority proposed to be extended through 2012-13 for Education and Health, which are related to the Governor's proposals to place a two-year limit on School Aid and Medicaid spending. Certain provisions are included in the proposed legislation to restrict spending authority for the related programs during 2011-12.
